

# Need to Know

## Pacific Remote Dispenser

Bennett Pump Company

To: Bennett Distributors, Service Representatives, and Industry Related Parties

Volume 1, Issue 128

January 14, 2007

Please find enclosed the net price list for our new Pacific remote dispenser. Please note that the prices are DISTRIBUTOR NET. Payment terms remain the same: 7%10 or 5%30; Net 31 with prior approved credit.

These units are available only as a remote dispenser; there is no suction pump version available.

A model configuration sheet is also enclosed. These graphic drawings give a quick visual representation depicting number of primary product inlets and number of dispensing hose outlets.

Professional photography and a brochure will be available soon; in the interim, this bulletin shows color drawings of a 3+1 model with VeriFone® PCI compliant OP4100 debit/credit card reader, the first PCI compliant card reader available for sale for dispensers in the USA. For more details about the VeriFone card reader, you can download a brochure and other information from the VeriFone web site: [www.verifone.com](http://www.verifone.com). Find the link on their home page for "Secure PumpPAY", the name VeriFone uses for its field upgrade kits for obtaining PCI compliance.

Oval canopy kits are a field installed option. Check the price list for other available options.

We are accepting orders now for late March delivery.

A brochure will be mailed to you in early March that includes professional photography of production units.

Close-up of VeriFone® OP4100 card reader.

Layout of electronics hinge-open door with centralized customer interface.
